Accepted disciplines include athletics, skyrunning, mountaineering, ski mountaineering, cross-country skiing, and cycling.

Course
START: Piazza Marconi, Canazei (1.456 asl) at 4:00 p.m. on FRIDAY 09th July 2027
FINISH: Col Rodella, Campitello (2.388 asl)

The race course consists of approximately 4.9 km of uphill running, with 932 m of elevation gain, along mountain trails. The course will be marked with flags.*At the start, along the course, and at the finish, Organization staff will be available for assistance. Staff will wear high-visibility vests (YELLOW).* Participants must strictly follow the marked route. Each competitor must follow the marked course and adhere to the instructions of the staff and respect all race signage, including warnings about dangerous sections requiring maximum attention. Outside the official race route, the Organization does not guarantee safety, as the race takes place in a high mountain environment with all associated risks. The course is classified as EE ("route for experienced hikers") and requires the ability to move safely over particularly challenging mountain terrain, including exposed sections and steep slopes. Competitors must strictly follow the marked race course and must not take shortcuts or cut any sections of the route. Leaving the official course will result in disqualification from the final rankings and will be entirely at the competitor's own risk and responsibility.
The topographical map of the course, as well as the GPS track, will be published on the event website; competitors are encouraged to download them and carry them during the race.
The race will start with a "mass start": Elite athletes will start at the front, followed by all other competitors.
The athletes belonging to the seeded group will be identified by the Organizing Committee in cooperation with the race official.

Mandatory Equipment
- Race bib, to be worn visibly throughout the race and not altered in any way
- Windproof jacket
- Trail running shoes with soles in good condition

The use of poles and protective eyewear to protect against poles used by competitors ahead is optional. No assistance will be provided for the delivery or collection of poles. Mandatory equipment will be checked before the start and subsequently through random checks. Any violations will result in the disqualification of the competitor.

The Organisation will arrange for the transportation of clothing to the finish area, allowing competitors to change after the race. Clothing must be handed in no later than 3:00 p.m. on Friday 9th of July 2027, to allow the Organizing Committee to transport it to the finish area.

Prohibition of Assistance and Descent to the Valley

Competitors are not permitted to be accompanied along any part of the race course. Competitors are also prohibited from descending to the valley along the race course. For the return journey, competitors must take the cable car from Col Rodella to Campitello di Fassa. Transportation down to the valley by cable car is free of charge upon presentation of the race bib. After returning to the valley by cable car, dedicated shuttle buses will be available for athletes and accompanying persons to return to Piazza Marconi in Canazei. Athletes must present their race bib, while accompanying persons must present the pass provided in advance upon specific request.

Withdrawal

Any athlete who decides to withdraw from the race must inform the Organisation staff and show their race bib. If no medical assistance is required, the runner must return independently along the marked route.
In the case of voluntary withdrawal not due to a physical impediment, and upon notifying staff along the course, the Organization's obligation to provide assistance shall cease.

Refreshments

There will be two refreshment points along the course (liquids only), and one by the finish area. The refreshment point by the finish area will have liquids and food.
Showers and massage services will not be available after the race.

Course Modifications or Interruption

At its sole discretion, the Organizing Committee reserves the right to modify the route, delay the start, or temporarily or permanently suspend the race, for all or part of the participants, should conditions arise that could seriously endanger the safety of athletes or anyone present along the course (e.g., rescue operations, rockfalls, or other hazards).
In the event of severe weather conditions, the organization may decide to suspend the race while in progress. In such cases, the final ranking will be determined according to the latest checkpoint reached by each athlete.

Environmental Policy

The Organizing Committee requests that all participants show the highest respect for the natural environment. Littering of any kind (cups, paper, wrappers, etc.) is strictly prohibited. Dedicated bins will be available at the refreshment stations. Runners found littering will receive a two-minute penalty.
The organization is not responsible for the loss or theft of personal belongings or equipment left unattended before, during, or after the race, at the race office, or in the start/finish areas.

Image Rights

By registering, each athlete expressly authorizes the Organizing Committee to freely use any images — still or moving — depicting them during participation in the event.

The organization may share these images with its institutional and commercial partners for promotional and communication purposes. This authorization is granted without time limits or territorial restrictions and includes the use of the athlete's image in promotional and/or advertising publications and videos on any type of media.
